

WESTLAW NEXT INTEGRATION POINTS

The missing piece that can turn your firm's portal into a complete productivity resource.

Information management is one of the most valuable processes your law firm can leverage to improve your strategic advantage. Portal technology strengthens your advantage even further – providing a platform for sharing information among multiple users and locations in your law firm. WestlawNext® Integration Points is highly customizable to meet your portal workflow needs, integrating seamlessly into your portal sites to put the power of WestlawNext where your users already work.

INTEGRATION POINTS

WestlawNext Integrations

Find & Print Widget

The easiest way to find and deliver documents on WestlawNext is now the easiest way to find and deliver documents within your portal.

The screenshot shows the 'Find & Print' widget interface. At the top, it says 'WestlawNext' and 'Find & Print'. Below that is the 'Enter Citations' section with a text input field and the instruction: 'You can enter up to 100 citations. Separate multiple citations by semi-colons or enter them on separate lines.' Underneath is the 'Result Options' section with the instruction: 'Select the type of content that you would like to get delivered.' There are two radio button options: 'Documents' (selected) and 'Full text documents'.

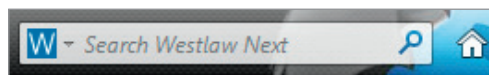

KeyCite® Widget

Give your researchers the power to view the history of a case, statute, administrative decision, or regulation to help determine whether it is good law.
